SUBMISSION OF NEW FORMAL DRAWING

Kindly substitute the enclosed new formal drawing of **FIG. 3** for the **FIG. 3** originally filed in the above-identified patent application. The struts 28 engage a downwardly extending holding element 16, as shown in FIG. 1, and in page 6 of the specification, lines 4-7.

The new **FIG. 3** shows the holding element 16 in phantom within casing 32 attached to the strut 28. The original **FIG. 3** mistakenly made it appear that the strut 28 is attached to the casing 32.

Applicant respectfully points out that nothing added in the new formal drawing could be construed as the introduction of new matter. Accordingly, it is believed that the substitute drawing should be entered.
